

Global Day of Caring

October 1, 2016

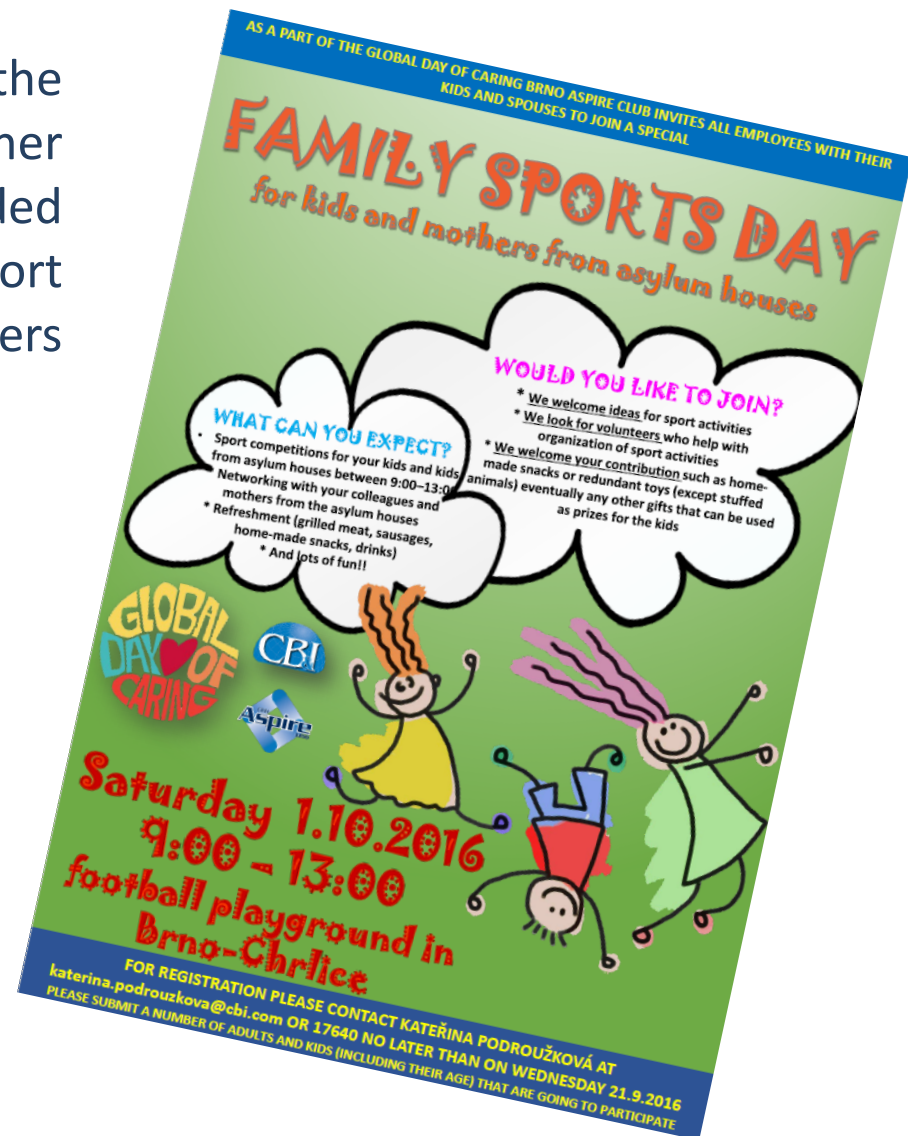

On October 1st all CB&I locations throughout the world participated in volunteering work, making it a truly global day of caring.

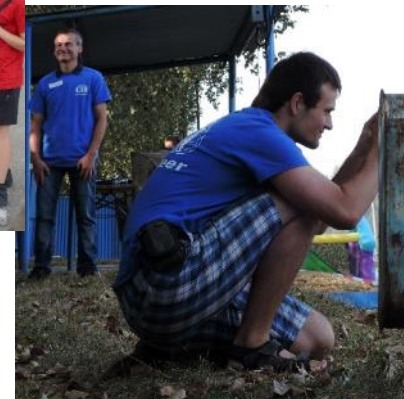

Based on the success from the last year, Brno office together with Brno Aspire Club decided to continue with the Sport Event for kids and mothers from asylum houses.

All CB&I employees and their kids were welcomed as well so this event was a great opportunity for networking with colleagues.

Our employees together with their relatives volunteered to be in charge of various sport activities.

All kids enjoyed the sport activities a lot.

Our employees prepared home made snacks and the lunch was provided by local restaurant

A big THANK YOU to all participants and volunteers
